

Sail Fin Student Support Materials

Included Files

This package contains Poster.pdf, Foldable_Tent_Card.pdf, and two QR code image files.

Why These Materials Are Included

After lessons are complete, your school can provide simple follow-on support to students in a Sail Fin branded way. This comes at no cost to you.

What Students Receive

Students can choose to purchase the inexpensive KiteCoach app. It is a helpful guide that supplements your instruction during or after lessons.

No accounts, no passwords, no tracking, and no data collection.

Learn more at <https://randycasburn.com/kitecoach>.

How To Use The Materials

Students scan the QR code, which directs them to your Sail Fin branded page. There they will find App Store and Google Play links for KiteCoach.

Poster

Place the poster around the shop, kite shack, equipment shed, bathrooms, or other areas students naturally visit.

Foldable Tent Card

Fold these in half and place them on table tops, desks, checkout counters, and other suitable flat surfaces.

Tip: after folding in half, fold the corner tips to help the cards stand up.

Digital QR Codes

The PNG and scalable SVG QR code files can be used in newsletters, websites, social media posts, marketing materials, and post-lesson follow-up emails.

Printing

Open Poster.pdf and Foldable_Tent_Card.pdf in a PDF reader or Microsoft Edge. Print several of each using a color printer.

Recommended Print Settings

- Paper size: Letter / 8.5 x 11
- Margins: none or minimum
- Background graphics: enabled

Your Sail Fin branding and your outreach, powered by KiteCoach.
